I. POLICY

It is the policy of the Polk County Jail to provide inmates with access to leisure and exercise time activities, for the purpose of maintaining physical, emotional, and social health.

II. GENERAL INFORMATION

- A. An inmate's classification status will determine his/her allowable recreation privileges.
- B. All activities are subject to the limitations for safety and security of the facility.
- C. The dayroom of each pod will be available to inmates, based on classification, from morning to night, seven days a week, for leisure activities such as television, board games, puzzles, cards, and reading. Exceptions would be during regularly scheduled daily activities, which include cleaning, meals, and lockdowns.
- D. All activities will cease approximately five (5) minutes before meals are served. Activities may be resumed after meal clean up is complete. Televisions may be left on. If inmates do not comply with the officers during Head Counts or meal times, the television will be turned off until after the next meal.
- E. Inmates will be allowed to walk or do calisthenics in the pod dayrooms, if they are not disruptive to other inmates, and do not walk or exercise in front of the television area or during any time an activity is going on in the pod.
- F. Leisure activities will not be allowed until the pod passes daily inspection.
- G. Medical staff will determine if an inmate is ineligible for exercise-oriented recreation. Medical staff will notify the Supervisor on duty, who will advise the appropriate officers. This will also be logged on the daily log.
- H. Recreation privileges may be denied to inmates by staff based on classification, disciplinary, security, or medical reasons.
- I. Staff may terminate any recreation period, for an individual or group, if facility rules are violated. A minimum of a verbal reprimand will accompany this action. See Discipline Policy, I-400.
- J. Those inmates in Protective Custody and Administrative Segregation will have the same exercise and leisure time activities available to them as prescribed by the current Administrative Segregation guidelines.
- K. Those inmates in Disciplinary Segregation will have access to exercise and leisure activities for one (1) hour per day, seven (7) days a week, subject to the safety and security of the facility.
- L. All inmates are subject to pat-searches or strip-searches, as deemed necessary.
